This Month's News from the Editor.

Hello again.

February proved to be another interesting month, our membership grew substantially once again, and at the time of writing we now have over 170 financial members. The interest in both our sub groups the *Legacy Users Group* and the *Family Tree Marker Group* have also increased in membership, which emphasises the fact that Family History is without doubt, the fastest growing hobby in the world.

With the passing of each month, new genealogy websites appear on the internet, there are now over 1500 such sites available, a majority of which are dedicated solely to English speaking countries such as the US, UK, Australia and NZ, all providing research resources, as well as chat-rooms where people are able to exchange information and provide mutual research help. This month's talk night Ivan Randall and Michael Smith will be discussing one of the most popular research sites, Ancestry.com.

If you have not considered utilising a computer program to record your family history research before, might I suggest that you contact a Committee member who will point you into the right direction. Remember that up-to-date versions of both Legacy and Family Tree Maker programs are available from the ANDFHG clubrooms at comparable prices.

The ANDFHG Committee has recently procured a pre paid mobile telephone, so that members and other enquirers are able to contact a Committee member, for advice, help or making a booking for research assistance. Currently Margaret Flaiban, our effortless working Secretary, is the major contact. Full details appear elsewhere in this newsheet. Please observe the hours that this service is available.

We have also purchased an A3 size Laminator, which will enable those precious documents or posters to be fully protected from wear and tear, by having them laminated. For details, contact Margaret or Ivan on Thursdays or Research Saturdays, times appear on the calendar in this issue, or use the telephone service.

I remind all members that the March issue of "The Compass" will delivered via e-mail on March 12th. it is essential that all members ensure that their respective inboxes have sufficient space to receive this edition, by keeping the inbox clear of mail build up.

In the past we have experienced undelivered e-mails being returned, which means that some members are missing out on their copy. Because the mail list is generated automatically, resending newsheets or "The Compass" can prove difficult.

GUEST SPEAKER'S NIGHT.

7PM Thursday 17th March 2011.

**ANDFHG meeting rooms Ann Street Salisbury.
(Old Police Station)**

Presenting

**IVAN RANDALL &
MICHAEL SMITH**

“Ancestry.com”

Just about every Family Historian researcher at some time or other has used the genealogy website Ancestry.com as a matter of course in their research. So what is Ancestry.com and how can it benefit you in your research?

Ancestry is the favourite research tool used with the family history programs such as Legacy and Family Tree Maker, two of the most used programs by our members, and finding one's way around the webpage can be a little daunting for the novice at first. Tonight's discussion will show how to take full advantage of the website, and hear some of Ivan's success stories how he has used Ancestry.com to help others with their research.

This should be a very helpful night for everyone interested in Family History research and using the internet.

Tea, coffee, and refreshments are provided.

EVERYONE WELCOME.
